

LIKELIHOOD: PROBABILITY

Make a cardboard circle.

Color one side red and one side blue.

1. Drop the circle on your desk 10 times. Write how many times it lands red up. Write how many times it lands blue up.

Red	
Blue	

2. Drop the cardboard circle 10 more times. Fill in the chart.

Red	
Blue	

3. Look at the first two charts. What do you think might happen if you dropped the circle 10 more times? Write your guesses.

Red	
Blue	

4. Now drop the cardboard circle 10 more times. Fill in the chart. Is it close to your guesses?

Red	
Blue	

Likelihood: Probability

Answer Key

1.–4. Check answers after activity.
