

CLEAN UP

The students at Ben’s school spent a day picking up trash in their town. They split up into groups. This graph shows how much trash each group picked up.

Directions Study the graph. Then, use the graph to answer the questions.

1. Which group’s trash weighed the most?

2. Which group’s trash weighed the least?

3. Which two groups gathered the same number of pounds of trash?

4. How many pounds of trash were gathered altogether?

Clean Up

Answer Key

1. C
2. E
3. A and D
4. 250 lbs
