

RACING RIDERS

The cycle clubs of Maple and Elm are having a race. Some cyclists ride faster than others. Use the map and estimate to find each answer.

1. When she races, Sarah can ride about 32 miles per day. About how far can she ride in a week?
_____ miles
2. Jacob usually rides about 21 miles per day. About how many miles can he ride in a one-week race?

3. Jacob starts at Elm Wednesday morning. On what day will he reach Spruce?

4. Lourdes races from Elm. She can usually ride about 29 miles per day in a race. Can she reach Spruce in 2 days?

5. Lourdes wants to race from Elm to Pine in 6 days or less. Can she make it in that time?

6. José raced from Elm to Spruce in 2 days. About how many miles per day did he race?

7. How long will it take for José to race from Spruce to Pine?

Racing Riders

Answer Key
