

LIKELIHOOD: PROBABILITY

Make a cardboard circle. 

Draw a  on one side.

Draw a  on the other side.

Hold the circle standing with your finger.

Let go. Do this 10 times. Count how many times the  lands up. Count how many times the  lands up.

1. The cardboard circle landed on  _____ times.
2. The cardboard circle landed on  _____ times.

Let the cardboard circle fall 10 more times.

3. The cardboard circle landed on  _____ times.
4. The cardboard circle landed on  _____ times.

Now circle the answer.

5. Did the cardboard circle land on  more often the last time?
yes no

6. Did the cardboard circle land on  more often the last time?
yes no

Likelihood: Probability

Answer Key

1.–6. Check answers after activity.
